To clarify the record, the copy of the after final amendment that was filed on 8/15/00, but not previously matched with the case, is **not** considered as timely under 37 CFR 1.8(a) & (b) because the statutory period for filing a Brief ended **7/14/00**. However, because new grounds of rejection are now necessitated (i.e., as it relates to an obvious double patenting rejection over U.S. Application No. 08/451374; now U.S. Patent 6,093,802), all previously allowed claims are no longer allowed, and the finality of the Office action mailed 6/15/99 is hereby withdrawn in view of the new grounds of rejection. See MPEP 706.07(f)(O).

Additionally, this application fails to comply with the requirements of 37 CFR 1.821 through 1.825 for the reason(s) set forth on the attached Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures. For example, no amino acid SEQ ID NO for Fig. 22 exists, as required, and the text has not been amended to describe what new SEQ ID NOs: 27-28 entail or whether these sequences are even necessary and should otherwise be deleted from the Raw Sequence Listing. In summary, 37 CFR 1.821 (a)(2)(d) states that each sequence disclosed must appear separately in the "Sequence listing", and referenced appropriately in the text of the description and the claims. See MPEP 2422 & 2431. Therefore, the following changes to the specification must also be made:

```
page 8, line 1: change to "pre-pro" and mature forms
page 8, line 3: insert
                           and residue numbers 1-134 of SEQ ID NO: 4)
page 8, line 4: delete
                           [amino acids residues 1 to 134 of SEQ ID NO: 5 and]

                           (SEQ ID NO: [5] 6)
page 8, line 7:

Applicant must comply with the requirements of the sequence rules (37 CFR 1.821 - 1.825) before the application can be examined under 35 U.S.C. §§ 131 and 132.

Note that Applicants will need to request that the terminal disclaimer of 8/15/00, etc. be entered after compliance with the Sequence Rules is fulfilled.

Any inquiry concerning this communication should be directed to Examiner **Robert C. Hayes**, Art Unit **1647**, whose telephone number is **703-305-3132**.

APPLICANT IS GIVEN A ONE MONTH EXTENDABLE PERIOD WITHIN WHICH TO COMPLY WITH THE SEQUENCE RULES, 37 CFR 1.821 - 1.825. Failure to comply with these requirements will result in ABANDONMENT of the application under 37 CFR 1.821(g). Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a). In no case may an applicant extend the period for response beyond the six month statutory period. Applicant is requested to return a copy of the attached Notice to Comply with the response.
